Dear user,

The Telecommunications Act of 23 June 2021 (BGBl. I p. 1858), last amended by Article 12 of the Act of 9 January 2026 (BGBl. 2026 I nr. 7), or TKG for short, of the Federal Republic of Germany describes the conditions under which public Internet access can be offered.

For university libraries of the Free State of Bavaria, this means that the use of electronic resources – including catalogue searches and lending procedures – can, as before, only be offered to users who are not members of the respective university under one condition: there must be a declaration that the electronic searches will be carried out in accordance with the condition that they

serve academic purposes.

In agreement with the other academic libraries of the Free State of Bavaria, Passau University Library has decided to request this declaration from its users only once. It is then valid for the entire duration of the user contract with Passau University Library, which is documented by a user card.

Best regards,

Dr Steffen Wawra
Director of the University Library
